# Specialized ingredients & tailored solutions for pet food manufacturers

WELDING FEED

## Your trusted partner in pet food innovation

At Welding, we combine decades of expertise in the feed and food industries to deliver specialized ingredients and tailored solutions to the pet food sector.

We source, develop, and supply raw materials – from plant-based texturants and functional animal proteins to essential ingredients – supporting pet food manufacturers to create consumer´s expectations for high nutrition and palatability.

### WELGEENAN™ & WELGINAT

**Creating optimal texture and stability for wet pet food in partnership with Eurogum**

High-performance seaweed-based solutions delivering excellent texture, strong binding and consistent quality, even through sterilization.

- Controlled water separation
- Strong binding of all types of fat, meat inclusions and organs
- Consistent gel formation and viscosity control

**Suitable for pâté, mousse and meat chunks in gravy or jelly**

### FUNCTIONAL PROTEINS, BONE BROTHS & COLLAGENS

**Partnership with Essentia for selected markets**

Animal-based protein ingredients for high nutrition, functionality, and palatability in pet food.

- Collagen Peptides (Beef, Chicken, Pork)
- Functional Proteins (Beef, Chicken, Pork)
- Bone Broths (Beef, Chicken, Pork, Lamb)

**Natural origin – High Protein – High Collagen – Low Ash**

### HIGH QUALITY INGREDIENTS

**Vitamins, pro-vitamins & amino acids**

Leveraging our global warehouse network and decades of experience in animal nutrition, we supply essential ingredients for pet food.

- Taurine
- L-Carnitine
- Glycine
- Vitamins (all forms)

**Global sourcing – Consistent quality**

Ready to elevate your pet food formulations?
